

Arteche offers low voltage and medium voltage (600V to 72Kv) Dry type instrument transformers, bushing current transformers (BcTs) for indoor and outdoor applications

The Creative Composites Group delivers innovative, engineered solutions for cross arms as well as transmission, distribution, telecommunication and light poles. Their Fiber Reinforced Polymer (FRP) composite products are lightweight, high strength, corrosion-resistant and long-lasting. Made in the USA. Excludes AEP

INNER-TITE Corp. serves the utility industry through the design, manufacture and sale of innovative, premium quality mechanical security devices and makes revenue protection, utility theft prevention and collection duties easier, safer and more effective. Since 1932, Inner-Tite has specialized in developing the finest products for the utility industry. Made in the USA

ITEC offers oil-filled CT's & PT's from 25kv – 230kv, oil-filled Station Service Transformers from 46kv – 161kv, up to 167kVA, Combination CT/PT from 25kv – 230kv, Slip-over bushing current transformers for retrofit and custom applications, Generator CT's up to 50,000 Amps. Made in the USA.

Newell-PSN is a manufacturer of High Voltage Electrical Porcelain, Glass Insulators and High Density Polyethylene products. Their product types include Station Post, Line Post Transmission and Distribution as well as Apparatus porcelains. Their standard product line ranges from 7.5kv to 765kv.

Panel Built manufactures a complete line of custom modular substation buildings, security booths, pre-assembled buildings, ballistic rated guard houses, prefabricated towers, offices, mezzanines, cleanrooms, and other modular structures.

Pelco Structural Transmission, Substation, Distribution tapered tubular steel structure for applications up to 765kv, They pre-fit multi section structure before they ship to ensure accuracy. Offers temporary Emergency Transmission structures for fast installation that fits most application during any emergency needs. Made in the USA.

Phasor360 offers consulting and training services for the electric utility industry on Grounding, Metering, AMI, VAR Mitigation and SCADA. They build SME, PME, Cap-Banks, Sectionalizers and other custom OEM equipment. Disabled-VET Owned-USA Assembled

Polywater helps electrical and communication customers create more reliable systems by anticipating and overcoming field-specific infrastructure problems. Specializing in formulated lubricants, sealants, adhesives, and cleaners, Polywater has a proven record of definitively solving field challenges and creating more reliable systems that reduce costs, protect valuable assets, maximize the life of equipment.

Priority Wire is a premier supplier of transmission, distribution, substation and building wire and cable. Aluminum SER, SEU, XHHW, 600 Volt UD, Service Drop, ACSR, AAC, AAAC, ACSS, MV Cable, Bare Cu, Control cable, Guy Wire, Aluminum Clad, Airport Lighting, Portable Cord, Type W, G, G-GC, SHD-GC, DLO, Welding Cable, MC Cable, Category Cables (3, 5E, 6), Coaxial Cables, Electronics Cables, Ground Rods and Accessories. Excluding Entergy

Radian Research, Inc. is a recognized world leader of Energy Reference Standards, Energy Meter Testing Systems, Current Transformer Testers, Meter Test Boards, DC to AC Transfer Standards, and Automated Laboratory Energy Reference Systems. They provide both portable and primary energy reference standards that are absolutely unequaled in accuracy, stability and reliability.

Reinhausen manufactures high-quality products such as on-load tap-changers and de-energized tap-changers, innovative sensors, automation technology and analytics, as well as an increasing number of digital solutions.

Richards Manufactures CU & AL Connectors-Compression & Mechanical, Braided Rope, Pole Line Hardware, Wildlife Protector, 200AMP Loadbreak Elbows and accessories, 600/900Amp Deadbreak Elbow and accessories, Cold Shrinks, Network Protector and Accessories, Overhead Disconnect Switch and ADSS Fiber Clamps. Made in the USA. Hardware only.

Royal manufactures hookstick disconnect switches, and group operated disconnect switches from 7kV through 345kV (600A thru 5000A), along with utility specific designs and substation power connectors. Products include Vee Center Break, Center break, Vertical Break, Double End Break, Side Break, Ground Switch, and a line of substation class power connectors, such as: Tee, Terminal, Stud, Bar, Bus Support, Coupler, Junction Boxes, Flexible Braid, Spring Strain Bus Assemblies, and Grounding Clamps.

Safegrid is a simplified and scalable fault monitoring solution for electric transmission and distribution grids. Their solution enables fault location within +/- 100 meter accuracy on a map in just seconds and predictive maintenance is based on 24/7/365 partial discharge detection. With proprietary algorithms, the system classifies grid events by type and severity, enabling customers to identify faults, anticipate future issues, and prevent them.

SPS Manufactures Low voltage switchgear and switchboards, medium voltage metal-enclosed and metal-clad switchgear, low and medium voltage arc-resistant switchgear, metal-enclosed power capacitor banks and harmonic filter banks, PME enclosures, relay panels, skids, and e-house (PDC, PCR, EER, IPA, PCC) buildings. WBENC -Made in the USA.

StressCrete makes High Quality Spun Concrete Poles, power distribution and transmission poles as well as a line of specialty poles that are suited for camera and solar applications. Made in the USA.

Uticom manufactures a full line of labels, markers, tags, decals, ANSI/OSHA safety graphics, waterproof tags, and custom signage for the utility market as well as custom-made solutions. Their compliant and durable graphics are accomplished through their Compliance Monitoring Program. Their services include the development, manufacturing and monitoring of hazard alerting and utility graphics standards, procedures and products. Made in the USA.

WEG offers Power, Auto's, GSU's, Rectifiers, Arc Furnace and 3 Phase Padmount Distribution Transformers. Made in the USA.
