

Arruti designs and manufactures vibration dampers, spacers, transmission and fiberoptic hardware, mechanical, compression and welded connectors for transmission, power substation and distribution systems for application in grounding, distribution, transmission and substations with capacities up to 500KV.

Defender Plastics manufactures BOLO™ Corner Guard, a first-of-its-kind, all-in-one utility box pad protection system that reduces the amount of time and money spent repairing or replacing damaged pads and partially buried fiberglass utility infrastructure.

King Luminaire manufactures decorative outdoor lighting products for a vast array of applications. From park lighting, streetlighting, new home development to utility, King Luminaire has supplied thousands of luminaires throughout North America and the world. King Luminaire can help design and supply outdoor lighting products for most applications including decorative spun concrete, metal, aluminum and cast iron poles along with bases, arms and banners. Made in the USA.

Pelco Structural Transmission, Substation, Distribution tapered tubular steel structure for applications up to 765kV, Pre-fit before they ship to ensure accuracy. Offers temporary Emergency Transmission structures for fast installation that fits most application during any emergency needs. Made in the USA.

Premier supplier of transmission, distribution, substation and building wire and cable. Aluminum SER, SEU, XHHW, 600 Volt UD, Service Drop, ACSR, AAC, AAAC, ACSS, MV Cable, Bare Cu, Control cable, Guy Wire, Aluminum Clad, Airport Lighting, Portable Cord, Type W, G, G-GC, SHD-GC, DLO, Welding Cable, MC Cable, Category Cables (3, 5E, 6), Coaxial Cables, Electronics Cables, Ground Rods and Accessories. Excluding Entergy

Radian Research is a recognized world leader of Energy Reference Standards, Energy Meter Testing Systems, CT Testers, Meter Test Boards, DC to AC Transfer Standards, and Automated Lab Energy Ref. Systems. Both portable and primary energy ref. standards are absolutely unequaled in accuracy, stability and reliability.

Reinhausen manufacturers high-quality products such as on-load tap-changers and de-energized tap-changers, innovative sensors, automation technology and analytics, as well as an increasing number of digital solutions. Made in the USA.

SPS Manufactures Low voltage switchgear and switchboards, medium voltage metal-enclosed and metal-clad switchgear, low and medium voltage arc-resistant switchgear, metal-enclosed power capacitor banks and harmonic filter banks, PME enclosures, relay panels, skids, and e-house buildings. Turn Key drop in control houses. WBENC and made in the USA.

StressCrete makes High Quality Spun Concrete Poles, power distribution and transmission poles as well as a line of specialty poles that are suited for camera and solar applications. Made in the USA.

SubProTech provides reliable cutting-edge technology for substations including Wildlife Threat Detection, Thermal Monitoring, Automated Mitigation, Threat Radar Surveillance, Equipment Hot-Spot Trouble Shooting, Wildlife Species Specific Deterrent and is SCADA and NDAA Compliant. Made in the USA.

TSEA Energia manufactures Single-Phase Voltage Regulators, with a nominal current of up to 1200A and nominal voltage of up to 36.2kV, and are compatible with controls from other brands like SEL, Eaton/Cooper, Beckwith, etc.

Transmission & Distribution Services, LLC is a cost-effective leak seal solution to re-gasketing equipment for oil, nitrogen and SF6 leaks. Leak repairs on Transformers, Circuit Breakers, and Cable. Oil and gas leak detection and control programs.
