

Allied Bolt is a global supplier of hardware and components that support the power utility and telecom industries, with solutions such as earth anchors, pole line hardware, aerial drop hardware, drop attachments, grounding hardware, banding, tools, wall anchors, and fasteners and Polymer Distribution Insulators.

Arruti designs and manufactures vibration dampers, spacers, transmission and fiberoptic hardware, mechanical, compression and welded connectors for transmission, power substation and distribution systems for application in grounding, distribution, transmission and substations with capacities up to 765KV. Entergy Only.

Arteche offers low voltage and medium voltage (600V to 72Kv) Dry type instrument transformers, bushing current transformers (BcTs) for indoor and outdoor applications.

The Creative Composites Group delivers innovative, engineered solutions for cross arms as well as transmission, distribution, telecommunication and light poles. Their Fiber Reinforced Polymer (FRP) composite products are lightweight, high strength, corrosion-resistant and long-lasting. Made in the USA. Excludes AEP

INNER-TITE Corp. serves the utility industry through the design, manufacture and sale of innovative, premium quality mechanical security devices and makes revenue protection and utility theft prevention duties easier and more effective. Since 1932, they have specialized in developing the finest products for Electric, Gas, Water and Telecom/Cable TV utilities. Made in the USA.

ITEC, a PGC Company, offers oil-filled CT's & PT's from 25kV – 230kV, oil-filled Station Service Transformers from 46kV – 161kV, up to 167kVA, Combination CT/PT from 25kV – 230kV, Slip-over bushing current transformers for retrofit and custom applications, Generator CT's up to 50,000 Amps. Made in the USA.

King Luminaire manufactures decorative outdoor lighting products for a vast array of applications. and can help design and supply outdoor lighting products for most applications including decorative spun concrete, metal, aluminum and cast iron poles along with bases, arms and banners. Made in the USA.

Leotek Electronics is globally recognized as a pioneer in light-emitting diode technology, and with millions of LED products installed worldwide, the company has a historical legacy of proven performance. They offer innovative LED lighting products for applications encompassing traffic, transit, street, and area lighting. Assembled in the USA.

Mid-Central Electric manufactures medium voltage, oil-filled, 'Fixed Load' transformers. Sizes range from 0.5 KVA to 3.0KVA designed specifically to provide control power for recloser switch and capacitor bank applications but are suitable for other small loads. They offer the most compact tank size and smallest weight in the industry providing the best aesthetics and ease of installation for your application. Made in the USA.

Newell, a PGC Company, manufactures High Voltage Electrical Porcelain, Glass Insulators and High Density Polyethylene products. Their product types include Station Post, Line Post Transmission and Distribution as well as Apparatus porcelains. Their standard product line ranges from 7.5kv to 765kv.

Pelco Structural Transmission, Substation, Distribution tapered tubular steel structure for applications up to 765kV, Pre-fit before they ship to ensure accuracy. Offers temporary Emergency Transmission structures for fast installation that fits most application during any emergency needs. Made in the USA.

Polywater specializes in formulated lubricants, sealants, adhesives, and cleaners, Polywater has a proven record of definitively solving field challenges and creating more reliable systems that reduce costs, protect valuable assets, maximize the life of equipment.

Radian Research is a recognized world leader of Energy Reference Standards, Energy Meter Testing Systems, CT Testers, Meter Test Boards, DC to AC Transfer Standards, and Automated Lab Energy Ref. Systems. Both portable and primary energy ref. standards are absolutely unequaled in accuracy, stability and reliability.

Reinhausen manufacturers high-quality products such as on-load tap-changers and de-energized tap-changers, innovative sensors, automation technology and analytics, as well as an increasing number of digital solutions. Made in the USA.

Richards Manufactures CU & AL Connectors-Compression & Mechanical, Braided Rope, Pole Line Hardware, Wildlife Protector, 200AMP Loadbreak Elbows and accessories, 600/900Amp Deadbreak Elbow and accessories, Cold Shrinks, Network Protector and Accessories, Overhead Disconnect Switch and ADSS Fiber Clamps. Made in the USA. Overhead Distribution Hardware Only. Excludes AEP.

Royal manufactures hookstick disconnect switches, and group operated disconnect switches from 7kV through 345kV (600A thru 5000A), along with utility specific designs and substation power connectors. Products include Vee Center Break, Center break, Vertical Break, Double End Break, Side Break, Ground Switch, and a line of substation class power connectors.

Safegrid fault monitoring solutions for electric transmission and distribution grids. Their solution enables fault location within 100 meter accuracy in just seconds and predictive maintenance is based on 24/7/365 partial discharge detection. The system classifies events by type and severity, enabling customers to identify faults, anticipate issues, and prevent them.

SPS Manufactures Low voltage switchgear and switchboards, medium voltage metal-enclosed and metal-clad switchgear, low and medium voltage arc-resistant switchgear, metal-enclosed power capacitor banks and harmonic filter banks, PME enclosures, relay panels, skids, and e-house buildings. Turn Key drop in control houses. WBENC and made in the USA.

StressCrete makes High Quality Spun Concrete Poles, power distribution and transmission poles as well as a line of specialty poles that are suited for camera and solar applications. Made in the USA.

SubProTech

SubProTech provides reliable cutting-edge technology for substations including Wildlife Threat Detection, Thermal Monitoring, Automated Mitigation, Threat Radar Surveillance, Equipment Hot-Spot Trouble Shooting, Wildlife Species Specific Deterrent and is SCADA and NDAA Compliant. Made in the USA.

TSEA Energia manufactures Single-Phase Voltage Regulators, with a nominal current of up to 1200A and nominal voltage of up to 36.2kV, and are compatible with controls from other brands like SEL, Eaton/Cooper, Beckwith, etc.

Uticom manufactures a full line of labels, markers, tags, decals, ANSI/OSHA safety graphics, waterproof tags, and custom signage for the utility market as well as custom-made solutions and Compliance Monitoring Program. Made in the USA.

Vizimax is a leader in digital substations. Products include: SynchroTeq point on wave switching applications, AMU converting analog to digital with high accuracy, PMU synchrophasor technology monitors the health of your electrical system in real-time, RightWON a protocol converter, and Versa auxiliary control modules and auxiliary relays.

WEG offers Power, Auto's, GSU's, Rectifiers, Arc Furnace and 3 Phase Padmount Distribution Transformers. Made in the USA. Made in the USA.
