Allied Bolt is a global supplier of hardware and components that support the power utility and telecom industries, with solutions such as earth anchors, pole line hardware, aerial drop hardware, drop attachments, grounding hardware, banding, tools, wall anchors, and fasteners and Polymer Distribution Insulators.

Newell, a PGC Company, manufactures High Voltage Electrical Porcelain, Glass Insulators and High Density Polyethylene products. Their product types include Station Post, Line Post Transmission and Distribution as well as Apparatus porcelains. Their standard product line ranges from 7.5kV to 765kv.

ITEC, a PGC Company, offers oil-filled CT's & PT's from 25kV – 230kV, oil-filled Station Service Transformers from 46kV – 161kV, up to 167kVA, Combination CT/PT from 25kV – 230kV, Slip-over bushing current transformers for retrofit and custom applications, Generator CT's up to 50,000 Amps. Made in the USA.

Royal manufactures hookstick disconnect switches, and group operated disconnect switches from 7kV through 345kV (600A thru 5000A), along with utility specific designs and substation power connectors. Products include Vee Center Break, Center break, Vertical Break, Double End Break, Side Break, Ground Switch, and a line of substation class power connectors.

Mid-Central Electric manufactures medium voltage, oil-filled, 'Fixed Load' transformers. Sizes range from 0.5 KVA to 3.0KVA designed specifically to provide control power for recloser switch and capacitor bank applications but are suitable for other small loads. They offer the most compact tank size and smallest weight in the industry providing the best aesthetics and ease of installation for your application. Made in the USA.

Vizimax is a leader in digital substations. Products include: SynchroTeq point on wave switching applications, AMU converting analog to digital with high accuracy, PMU synchrophasor technology monitors the health of your electrical system in real-time, RightWON a protocol converter, and Versa auxiliary control modules and auxiliary relays.
